

# THE STATE OF UTAH

OFFICE OF STATE ENGINEER

T. H. HUMPHERYS

STATE ENGINEER

SALT LAKE CITY

June 29, 1936

Memorandum for Office Study only, by R.J.

*Burnet Fork*

Park City, Telephone No. 5

Attorney McDonough called and said since they had been waiting for Jensen to come into Utah he had not showed up but he had been sending his 15 year old boy, whom Mr. Bullock had caught, and because of his age (he was a juvenile) and because of an experience last summer in Summit county, Mr. McDonough thought possibly it would be useless to bring the boy in, because the courts would turn him loose, so he thought we should get out extradition papers immediately to have Mr. Jensen brought up. He asked that we discuss it with Mr. Giles.

I discussed the situation with Giles and he said he thought we should take the boy down and turn him over to the juvenile authorities, immediately prepare extradition papers for Jensen, have him brought down and if necessary bring in the whole family but what this situation is cleared up.

This information was telephoned back to the County Attorney and he said he would proceed at once along those lines.
